PROJECTS

Bokeh (Rails, Backbone)   **Live | GitHub**

Photo sharing web-app inspired by Flickr

- ❖ Deeply nested composite views to minimize page re-rendering
- ❖ Customized data serialization with Jbuilder to reduce data transfer
- ❖ AWS S3 photo upload and OmniAuth through Google

Asteroids (JavaScript)   **Live | GitHub**

Browser version of the 1970s arcade classic

- ❖ All rendering done through HTML5 canvas
- ❖ Velocities of all moving objects calculated with custom vector equations
- ❖ Dynamic updating of score and number of lives

Meta Rails Demo (Ruby)   **GitHub**

MVC framework inspired by Rails

- ❖ *Reconstruction of Rails functionality: controllers, params, router*

SKILLS

Ruby, Rails, JavaScript, jQuery, Backbone.js, Git, RSpec, SQL, HTML, CSS

EDUCATION

App Academy

New York City - Summer 2015

- ❖ Full-stack development with Ruby on Rails and Backbone
- ❖ Highly selective: acceptance rate less than five percent

Binghamton University

Binghamton, NY - 2005 - 2009

- ❖ B.A. Physics
- ❖ Relevant courses: Calculus, Discrete Mathematics, Senior Physics Lab

WORK HISTORY

Photographer, Self-Employed

New York, NY - 2009 - 2015

- ❖ Provide photography services to private and commercial clients
- ❖ Design and maintain fully integrated multi-platform web presence for content, distribution, and promotion
- ❖ Extensive photo editing with Adobe Lightroom and Photoshop

Lead Photographer, Lifetouch Portrait Studios

Farmingdale, NY - 2011 - 2013

- ❖ Provide leadership to all photographers and coordinators
- ❖ Primary on-site client contact for the company
- ❖ Frequently given at-risk accounts by management due to consistently excellent results and positive customer service track record
